

Interested in Immunology? Just graduated in life science? Searching for an exclusive and top-quality PhD program?
Excited to explore new challenges in an exotic region?

SgN-NTU Immunology PhD Program

Program Content

- Joint initiative of SgN (A*STAR) & School of Biological Sciences (NTU)
- Intake – August 2012
- **Scholarship granted for 4 years**
(university fees + stipend)
- Thesis: Research project in human immunology / immune regulation as a core curriculum
- International program board (SgN PIs and NTU Professors)
- Opportunity to attend international summer school in advanced immunology
- Opportunity to attend a PhD annual training workshop and international scientific conferences
- Degree delivered by Nanyang Technological University (NTU)

Interested candidates should visit www.sign.a-star.edu.sg/PhD-Program for details on the application process

Deadline for applications: 8th December 2011

For enquiries about this PhD Program, please contact Program Manager Barbora Fricova at SgN_PhD_Program@immunol.a-star.edu.sg

Attractive Scholarships Includes

International students:

- University fees
- Monthly stipend
- Airfare grants
- Settling-in allowance
- Medical insurance
- Subsidized campus housing for the 1st year

Local students:

- University fees
- Monthly stipend
- Conference allowance
- Book, computer and thesis allowance
- Support for overseas attachment
- Medical insurance
- Subsidized campus housing for the 1st year

About SgN

- New immunology hub: launched by Agency for Science, Technology and Research (A*STAR) in January 2008 in Immunos building at Biopolis (Singapore)
- Rapid growth, international environment: 200 investigators coming from 25 countries
- Cutting-edge technological platforms and core services: Multiphoton imaging, Monoclonal Abs, Flow Cytometry, Mutant mouse collection, Genomic etc.
- Main research areas: Infection, Inflammation and Immunoregulation with emphasis on human immunology and translational research
- International networking & collaborations: important partners in Biotech industry as well as clinical, research and academic partners

SgN PIs
