CONGRESS VENUE MAP

5TH Meeting on Combined Biotherapy of Cancer of the *ALLEANZA CONTRO IL CANCRO*

PROGRAM 2

Milano, April 9-10, 2010

San Raffaele Scientific Institute
Lecture Room "Caravella Santa Maria"

Program 2 Coordinators:

Prof. Giorgio Parmiani
Dr. Enrico Proietti

The *Istituto Superiore di Sanità* (Roma) and the *Italian Network of Biological Therapy of Tumors* (NIBIT) have supported and promoted research projects aimed to increase our knowledge in the field of biotherapy of cancer and the communication among different specialists including doctors, nurses, basic research investigators and regulatory people at national level.

This 5th Meeting has an international dimension and is focused on the pre-clinical and clinical features of combined therapy of cancer, including immuno-biotherapy. Previous studies have shown that biotherapy can synergize with other therapeutic approaches in increasing the efficacy of anti-cancer agents. Internationally renowned speakers will discuss several aspects, including limits, of the potential synergistic interactions between immuno-biotherapy and other therapeutic agents/approaches at pre-clinical and clinical level. Results of the more recent translational clinical trials in this promising research field will be presented.

The conclusions of the meeting should provide new insights for designing innovative studies aimed to improve the clinical response of cancer patients.

Giorgio Parmiani,
Enrico Proietti
Program 2 Coordinators

Prostate cancer and melanoma

Chairmen: Paolo Ascierto (Napoli, Italy)
Francesco Montorsi (Milano, Italy)

- 14.00-14.30** Multipptide-based vaccination in prostate cancer
Licia Rivoltini (Milano, Italy)
- 14.30-15.00** RNA based vaccines in pre-treated prostate cancer patients
Thomas Lander (Tübingen, Germany)
- 15.00-15.30** Adoptive immunotherapy in immune-depleted melanoma patients
Luca Gattinoni (Bethesda, MD - USA)
- 15.30-16.00** Coffee break
- 16.00-16.30** IL-2 + peptide vaccination in metastatic melanoma
Douglas Schwartzentruber (Goshen, IN - USA)
- 16.30-17.00** MAGE-A3 immunotherapy: from phase II to phase III in melanoma patients
Diane Lejeune (Rixensart, Belgium)

Saturday, April 10

Session 3.

Modulation of immunotherapy

Chairmen: Filippo Belardelli (Roma, Italy)
Bernard Fox (Portland, OR - USA)

- 09.00-09.30** **Keynote lecture** - Selection of patients for immunotherapy
Michael B. Atkins (Boston, MA - USA)
- 09.30-10.00** Combined adoptive and active immunotherapy
Bernard Fox (Portland, OR - USA)
- 10.00-10.30** Vascular targeting chemotherapy and immunotherapy: teaming up to attack cancer
Matteo Bellone (Milano, Italy)
- 10.30-11.00** Coffee break
- 11.00-11.30** Th2 immune deviation of tumor-antigen specific CD4⁺ T cells in pancreatic cancer
Maria Pia Protti (Milano, Italy)
- 11.30-12.00** Combined chemo/biological therapy in NHL
Massimo Di Nicola (Milano, Italy)
- 12.00-12.30** The CTLA4 antibody as immuno-modulating agents in human melanoma patients
Michele Maio (Siena, Italy)
