

## **Staff Scientist and Postdoctoral Researcher**

**Cytokine Receptor Laboratory, [www.crl-mappit.be](http://www.crl-mappit.be)**

Ghent University, [www.ugent.be](http://www.ugent.be)

VIB (Flanders Institute for Biotechnology), [www.vib.be](http://www.vib.be)

### **Job description**

We are currently looking for a **Staff Scientist** and a **Postdoctoral Researcher** to strengthen our basic and translational research programs that aim to delineate the molecular and cellular mechanisms underlying cytokine function.

For current research topics at the Cytokine Receptor Laboratory (CRL), visit our website: [www.crl-mappit.be](http://www.crl-mappit.be).

Candidates for both Staff Scientist and Postdoctoral Researcher will lead and develop research programs in harmony with those of the CRL, and open to interaction with the other groups and with industry.

We offer 5-year renewal contracts, with highly competitive start-up funds, access to students, fully equipped laboratory space, and support from core facilities and personnel.

Both VIB and UGent funding will be available and includes support for additional personnel.

Strong candidates may be eligible for a Tenure Track position at UGent.

### **Profile**

Applicants must have an outstanding track record of research. Staff Scientist positions require a minimum of 3-5 years of experience as an independent investigator, with demonstrated ability to obtain external peer-reviewed funding. Postdoctoral Researchers must have at least 2 years of postdoctoral training.

### **Contact**

Please submit a full c.v., a description of past research (1 page) and research proposal, and a list of at least 3 contact persons (with name, e-mail, address, phone number) for letters of reference to:

Jan Tavernier

Head, Cytokine Receptor Laboratory

A. Baertsoenkaai 3

9000 Ghent, Belgium
