

Commercial agreements with BioLegend

BioLegend is a biotech company based in San Diego that develops and markets a broad panel of reagents for a wide range of applications in the area of immunology, including recombinant molecules and over 8,000 antibodies for flow cytometry, ELISA, immunoprecipitation, Western blotting, immunofluorescence microscopy and immunohistochemistry. BioLegend also offers over 300 LEAF™ Low-Endotoxin Azide-Free monoclonal antibodies for *in-vitro* and *in-vivo* animal studies, available in bulk quantities with flexible pricing based on the needs of the customer. Additionally, BioLegend offers world-class technical support. All reagents BioLegend have a guarantee of quality, can be found directly through the site Italian (www.biolegend.com/it) and thanks to the European subsidiary BioLegend Europe are delivered quickly.

BioLegend has entered an agreement with SIICA, which provides members access to economic conditions favorable to their products, with discounts of 35% applied to the Italian price list (available at www.biolegend.com/it) and no shipping charges for orders of more than Euro 230 in total net purchase.

In order to apply these special conditions, SIICA members must quote the code "BLI-SIICA-2010" to relay your purchase order at:

BioLegend Europe BV
Ambachtweg 5
1422 DS Uithoorn
The Netherlands
Phone: +31-297-522488
Fax: +31-297-522756
E-mail: salesitaly@biolegend.com
VAT: NL819685239B01

For your convenience you may also order from BioLegend's Italian Logistics Partner:

Campoverde Srl
Via Privata Marco Fabio Quintiliano, 31
20138 Milan
Italy
Phone: 02-58039030
Fax: 02-58039029
E-mail: biolegend@campoverde-group.com

BioLegend is also available to collaborate with SIICA members for the development and commercialization of research reagents in the immunological area.
